

The Leaking Truth

1st Post - Everything we Know So Far..

February 20, 2024

So I remembered what happened to me last time I was in the universal mind at the bus stop waiting for my ride with witnesses present my bubble was burst on me unexpectedly. Chances are whatever is happening to me right now is the same thing that happened last time this happened to me! I went through hell after that bubble burst, literally constant torture and pain and awful shit, probably paying the price for someone else's crimes they planted on me and somehow this all repeating again with a similar outcome being PLANNED on. Somehow this all involves bubbles along the timeline but somehow one day is being played on repeat in the universal mind December 24th unknown year but chances are it's in the future years 3,000-4,000 approximately according to what I have heard from Jeff Bezos voice coming from his ship over the telepathy. Somehow that same day is creating a small bubble of time in the universal mind and somehow below the timeline on my path a bunch of smaller bubbles are being created like a sphere and my path is literally consistent and also the equivalent of a sitting duck but my path is consistent going along the timeline for the duration of my life thus far. BUT I know there's another life path that was lived before this and it probably wasn't done by me but it was rapidly rushed with time from start to end in less than three years earth time. There's a chance somehow that path is going to be said that one came first and ignore the second path that's longer because it will take longer to uncover the truth that happened here because a ton of smaller bubbles are being created digging deeper into the timeline and the argument will probably be what's the point in digging this guy screwed up the first timeline he probably screwed up the second and if insisted to investigate the 2nd timeline they are going to see all the illegal shit the CIA and Donald John Trump and Kevin Hansen produced together somehow causing chaos to the planet one bubble at a time mixing up the paths they take along the timeline and crime committed in specific bubbles which will be a bitch to figure out exactly which chunks of time they stole in a bubble which I assume a bubble is created once every 24 hours at minimum sometimes shorter sometimes longer it's really hard to say how they could be mixing this up to add to the confusion if the universal mind investigation happens to try and uncover my truth and the actual path that I took VS

whatever 5D smaller paths in a day they stole and mixed up to try and add to the smaller bubble which is December 24th, this is probably creating a shit timeline for the universal mind to evaluate and if somehow they believe whatever shit they created somehow in some way I will be punished yet innocent at the same time and probably have no way to prove myself because chances are they filled my mind with encrypted content that presently I can not access but somehow Trump knows exactly how to unlock it because I heard my T-Mobile rep ID 1242298 is my prison number ID which is just sick when you think about it, was there free will or just a carbon copy constantly playing for X variable amount of times?! First off why would I be a prisoner is the first question second if I did whatever time necessary chances are Trump is doing whatever he can to steal everything around me, "everything that can be simulated has already been simulated" hence the main reason why I can't connect to the universal mind to begin with, he's stolen via time bubbles everything from me for his own taking and holding hostage to commit his illegal crimes and time skip into the future slowly but surely. I found Trump on June 11th, 2033 in an Uber according to the FEC.GOV website and I'm guessing which universal mind he's in is probably Abu Dubai because that's what I keep hearing via telepathy that location being referenced again and again. From TruePeopleSearch.com Trump had a Thom Hardy linked to his name and was 18-19yrs old but if he time skipped in that body to another universal mind he would be a bit older now and closer to the age of trying to run for president AGAIN somehow, but I'm going to guess he changed his name legally because there was only 1 Thom Hardy In the whole USA I could find that was on the east coast, because I found this I am 99% certain he would have legally changed his name and done everything legally to cover it up through any legal means necessary and possibly use another universal mind to make it seem like the change never happened on paper to get rid of the paper trail on him, but somewhere on camera either at the social security office or DMV there's footage of his stolen body going in and requesting a name change legally most like the last name, he still COULD be using Thom as his first name but that's 50/50 chances here but if he was truly paranoid he would have changed his entire identity to a completely new full name to fully cover his tracks.. I bet he kept the first name or made it his middle name at least bare minimum or kept Hardy somewhere in his legal name, it's a toss up how he could have done this but chances are he's running multiple bubbles in the timeline close together with variations in the event he's close to getting caught, but it comes down all to the bubbles that are being created out of my time stuck here on earth, those various sized bubbles are what's covering his tracks in Abu Dubai. The FEC.GOV list has a list of employees paid off probably right before he skipped into another universal mind and they probably have an idea of his whereabouts and the full story going on here because they got paid well to keep their mouths shut for his

campaign slush funds account that's illegally fueling his criminal enterprise. That website is a treasure trove of information regarding how he's using campaign funds to finance his personal lifestyle and the people around him and not to mention the legal teams he's funding to most likely keep on top of the CIA FOIA being created under my name or a variant of my name Keegan?! But those law offices know exactly what they are processing for the CIA and know what's going into that FOIA that I have requested the CIA IT Department make "read-only" and password protect and have a second file created showing the massive amount of edits going into the file within the CIA but chances of that happening are probably 0.0000001% but my idea is super simple and a little genius in order to prove my case and innocent status within the universal mind should someday I be questioned about my time spent on earth and what happened exactly! My contact with the FBI had been steady and I have more faith in their offices than the CIA at this point in time, they seem more committed to the Truth and POSSIBLY helping me if they got the chance to help and clear things up, hence why Trump in 2016-2020 worked so hard to fire Comey as head of the FBI but he couldn't get to him for whatever reason and his anger showed on TV because he couldn't fire him, this gives me hope the FBI is up to Trumps games that he plays and has done before, somehow they are closer to figuring out his game more than anyone else at this point in time. I've shared info with the FBI on tips on how Trump is getting away with this illegal work of his over time as I learn things and understand what certain things mean like rolling back the universal mind and using the "echo" to replay and cover up the timeline bubble via a replay and changing the telepathy because he said "I change anything you say in under 1 minute" and Verizon should someday come to the truth here and admit it that's what he said, probably not going to happen right away but someday enough pressure is going to build up and the truth will come out because there's no other ways around it! My best option at this time is to keep documenting everything happening to me and further explain what I am slowly understanding more and more of. My Wikipedia Talk on the EFF (Electronic Frontier Foundation) and The Game of Life is a perfect example of me explaining online what's happening and getting a digital record online to prove it happened and what's going to happen down the road. I can certainly bet RedCurve.com is one of Trumps illegal donation companies that could be paying the EFF small foundation donations from his campaign funds to fuel this future happening with the EFF, it would be very interesting to see the EFF donation log of funds and see exactly how much donations are being made to them trying to sway their own agenda to a more illegal one. That right there is something someone could investigate into right now and start to get an idea of the corruption happening real time before it blows up in the future into this opened source illegally binary code running Game of Life, I assume the closed source of it was OK but once it was open sourced that's where the illegal

crime nature of it took off from the future and started what we know in the universal mind and can't completely comprehend the complexity of how this really happening BUT I have a clue and idea and that's why it's so important for me to try and connect with the universal mind and relay this information to them ASAP! The binary code nature of this could be exploited from the universal mind and possibly find me somehow, that sounds like a really hard project because of the binary nature of it but somehow I am here most likely now in a form of code but not QUITE fully... There are things I still don't understand yet but I know this much information now and it's enough to raise some flags at the universal mind and grab their attention! Next thing is that I learned Donald John Trump has been asleep and that's probably because he got busted once before for doing illegal crimes and he's trying to wake up but presently "lucid dreaming" and stated "I've done enough lucid dreaming" which yet again is being stolen from me because I can't really lucid dream at all, sometimes I have minimal experiences with 30% control that are similar to lucid dreams I assume, Trump would be holding the majority of control to keep himself lucid enough and in power over my mind. Those lucid dreams are unfortunately terrifying most times because I'm being chased most of the time but people have seen me and I have tried having conversations with people trying to relay some of my information I know but remember 30% control so it's really hard for me to clearly explain in enough time what I need to say before something changes on me to someone. I have one clear talk with someone from the military that happened and hopefully they remember enough of that to ring a bell should the universal mind call them into question about the dream world experience where they might have run into me. Another girl Megan R. From high school ran into me in the dream world for a brief moment and again I'm not sure if she will remember it clearly or not (remember the bubbles) but she spoke to me. Right now I'm recalling the best intel I have right now, somehow Trump is going to use my cracked mind and he has already from 2016-2020 used his interns to sit in the "situation room" planting fake crimes into my mind who probably are under an NDA from the White House, they sat there and just made fun of me every day they worked telling me how stupid I am and how dumb I am all except for Dude who wasn't a complete dick but sympathized that "yeah your fucked basically" that was unspoken but understood between him and I. If there's an intern to crack he's the one to go after because he knew what was happening is wrong and couldn't bring himself to be more cruel to me than basically he had to be.. but this where the IT department at the CIA needs to investigate the logs of the FOIA file and take note of how many edits being made to it!!! I can't get this through to the CIA hard enough and get anyone to care enough about me as a person who literally according to my FOIA "getting fucked over"! Now here's another aspect to take into account Trump has the ability to take my memories from me, according to him he took all my lives where I did

live as a GOOD PERSON and I did that every life I was in which yet is one of the reasons why he hates me and is targeting me according to what I have been told, I'm basically too GOOD of person and he doesn't like that about me, well tough shit! But if he can take he can also PLANT shit back into the mind and make crimes from anyone planted into my mind especially those from people from the future, the military equivalent of shit rolling downhill but into a mind format. I'm not going to pay for someone else's crimes in the universal mind and further be a prisoner 1242298 anymore because according to what I heard from the universal mind I've been asleep far longer than Trump has been hence the reason why he's using me for all this and he plans on putting me right back to sleep once he pops my bubble, AGAIN! He also claimed how satisfying it was to pop my bubble!!! Sick fuck!!! I was at the bus stop and basically randomly died in the universal mind and I only remember because of a dream I had where this happened.. this could somehow be a timeline overlap using the dream world and the actual timeline come to think of it, how else would I remember especially if he A wiped my mind B Fried my mind but I remembered for a reason and I'm not going to let this happen AGAIN! I've heard about the death and terrible illegal shit he's planning on doing to me, especially with my genitals specifically that's his hot priority to hurt me and it's just sick and twisted, but he's opened every universal mind and basically given them a free pass to do whatever they want to me with the path of bubbles he's creating along the timeline! I know there's money involved it's just a major DUH! Most likely it's crypto in Trumps eyes that he's getting paid in and it's possible these terrible things in bubbles are already happening to me right now and somehow I'm going to experience it later on some form of a carbon copy repeat like it was once before AGAIN! I'm not going to let these bubbles of time torturing me actually happen to me if I can find a way to stop it from ever happening to me, but here's another piece of the puzzle I may asleep right now but if I get connected how will I know I'm in the REAL universal mind or a DREAM universal mind?!? I know that's a real danger I'm facing and if I don't know what exactly to do I'm going to be screwed over AGAIN and somehow sentenced to sleep, next thing I don't remember who I was in the universal mind but there's a chance I'm a missing person that's been gone for a long time and with all the torture and mind wipes they cleared out my memory of my name but I might have a chance of remembering if I connect and can grab my mind with it's memories back again. Not knowing who I am is a big problem BUT Trump did say over the telepathy who I WAS like yeah some dumb fuck name blah blah blah and seriously I don't remember exactly the name he said but it's IN THE TELEPATHY exactly what he SAID!!! If that can be extracted from my memories what I heard I might have a chance of getting my identity back and who I was, he literally spilled it out like he was talking to someone else who asked who I was so there's 2 people now who knew who I was!

Seriously I should have written it down just in case but I was not fully aware that he literally spilled a critical piece of information I actually needed to remember! But it's in my telepathy!! Now with the mind cracking he's grabbing personalities from other people and or criminals and trying to plant them into my mind somehow, this gets really really weird right now but he allegedly took Dahmer and Jesus and somehow mashed the two together to try and create some sort of persona to lock and plant into my mind deeper and this I don't understand but with the 25th being right around the corner he could tempt fate with God and then also use the gay man killer combined somehow to create some sort of monster out of me?!? How that one all is suppose to work is a huge mystery but I see the gears turning in his mind on how he's going to spin this off. BUT he did say he took 3 wishes from Jesus and his first wish was to make himself bigger than any other higher power!! So there is that aspect of also what's going on.. but I will not be turned into a monster because Trump is setting the stage here with bubbles personas and just a shit ton of edits showing illegal activities only. Whatever my bubble path is it's consistent somehow in order for him to keep tabs on me, but the universal mind needs to somehow get to him and actually figure this out especially if they know where he's sleeping?!? But has he moved bodies or minds to get closer to being awake?!? That's where what I found on TruePeopleSearch comes into play here and I mentioned to the CIA on my FOIA, the death path of innocent lives taken and property and assets stolen from them. XakRox2015@gmail.com has google map labels with specific addresses I found and marked from the data I managed to find, chances are like what happened to my neighbor Jerome who had a gun held to his head and died all of his property was taken over by the Baxters and supported by Trump, I literally linked Trump to my neighbors death by my own investigation and socially engineered the path Trump took to acquire the property from Jerome. Now is that property scandal taking place in the universal mind? Possibly?! Now is the dream universal mind or real universal mind, that's a bigger question to ask here, how deep does those crime actually go using me and my time, I already flagged the FBI of the property crimes happening and possibly happened to my parents and their own house already because I think I heard some construction sounds coming through the 5D and something was built around the house and surrounding area, I know I was hearing something that wasn't right but again I couldn't see it but I HEARD IT! Trump also claims to be shuffling around the universal mind mixing it up so possibly every room in this house links to someplace else and it's a clusterfuck mouse trap. He already stated I'm going to end up walking into the biggest trap and literally I can't see it but it's coming in the 5D, I'll probably end up free falling into something awful, and I know there's nothing worse than a free fall of the mind!! My neighbor Chuck is probably the only one holding out on Trump not letting him seal me off on the property with some sort of 5D dome built over me, so xxxth ST

NW road is still safe for time being until he can finally grab it and close it off for good.. So that's about the most I know at this point in time, a summary of what I figured out and linked together to create the bigger picture happening to me, the time bubbles are now the latest thing I've fully understood because of my own bubble bursting before! Somehow if Trump gets away with this crime AGAIN he WILL burst my bubble and nobody will know who I am let alone care what happens to me after that once he plants all his evidence on me from shit rolling downhill!!! But the telepathy he used my name!! It's out there so now somebody needs to find it for me and start doing something about this ongoing crime happening within his criminal enterprise!! I will not die without putting up the biggest fight for my own life and fight for the truth to come out and will do so at any cost it takes to reveal the truth once and for all here the universal mind needs to know exactly how this crime is happening so it can be understood what to look for in the future so I can't be a victim AGAIN!! I will not be another victim AGAIN EVER and I will stop others from becoming victims of this as well if I can stop it with the information I have in my head!!! I'm really hoping the FBI picks me up for volunteer work I asked for but I heard the CIA bitch why not us and WHYS THAT WELL YOUR FUCKING ME OVER!! THATS WHY!!! The FBI has more integrity than the CIA AND NSA COMBINED!!! Anyways that about wraps up all I have at this point in time... until a little more is uncovered by whatever methods or tactics I end up trying here... I'm going to get the truth out, my heart tells me that I will and it will happen, someday...

Somehow I am being blocked by every means possible you can think of, how does that work? That's a great question to ask and hopefully someone knows the answer to this because I sure don't!

The only other thing that I know is that somehow my mind is being used like a proxy of some sort, someone somehow is using me to try and get away with whatever it is they are trying to get away with and dump all of their shit onto me! That I do know and I am seemingly trying to stop that from happening here hence the blog to begin with, something is happening and I am trying to find some way of stopping whatever it is from happening to me and others as well because I KNOW I am NOT the only one that is being used in this sort of manner. The only thing I can think of is getting this information out there so people are aware of what's actually going on and they can know the truth VS whatever fiction is being displayed on me via overlay or whatever technology is being abused here. That's a fact.

This has been sent to a number of people, the CIA included. My goal with this blog is to get the truth out no matter what and seriously your getting the secret intel the CIA refuses to share because they are hiding a fraudulent FOIA on my name and I refuse to

be victimized here so it's in the PUBLIC INTEREST to know what's REALLY HAPPENING HERE. YOU ARE WELCOME. ENJOY PUBLIC FRIENDS!
